IMPORTANT SAFETY INFORMATION **READ ALL INSTRUCTIONS BEFORE USING THE APPLIANCE**

AWARNING To reduce the risk of fire, electrical shock, injury to persons, or damage when using the air conditioner, follow basic precautions, including the following

- Read all of the instructions before using this appliance.
- · Plug into a grounded 3 prong outlet. · Do not remove ground prong.
- · Do not use an adapter.
- Do not use an extension cord.
- Do not operate the air conditioner if it has a damaged cord or plug, if it is not working properly, or if it has been damaged or dropped.
- · GE Appliances does not support any servicing of sealed system components (i.e. refrigerant containing parts) in the air conditioner. Service of all other components may ONLY be completed by a qualified technician.
- Disconnect power before servicing
- Disconnect power before cleaning.
- NOTE: Turning off power by pressing the Power button does NOT disconnect the appliance from the power supply • Do not install or use the air conditioner in any area where the atmosphere contains combustible gases or where the atmosphere is contaminated. Avoid any chemicals coming in contact with your air conditioner. . Do not store anything directly on top of the air
- conditioner Use two or more people to move and install air
- conditioner · Never operate the air conditioner without the filters in
- place. . Do not use the air conditioner near a bathtub, shower or wash basin or other wet area.
- Risk of Fire or Explosion [WARNING] This unit contains flammable refrigerant.
- Additional safety precautions must be followed. Do not use means to accelerate the defrosting process or to clean, other than those recommended by the manufacturer
- . The appliance shall be stored in a room without continuously operating ignition sources (for example: open flames, an operating gas appliance or an
- operating electric heater • Do not pierce or burn refrigerant tubing. Be aware
- that refrigerants may not contain an odor. Keep ventilation openings clear of obstruction
- . When handling, installing, and operating the appliance, care should be taken to avoid damage to the refrigerant tubing.
- Do not drill holes in the unit
- Maintenance, cleaning, and service should only be performed by technicians properly trained and qualified in the use of flammable refrigerants.
- · GE Appliances does not support any servicing of the air conditioner
- · Dispose of air conditioner in accordance with Federal and Local Regulations. Flammable refrigerants require special disposal procedures. Contact a service center
- AWARNING How to Insert the Batteries in the Remote Control
- Remove the battery cover by sliding it according to the arrow direction.
- Insert new batteries, making sure that the (+) and (-) of battery are installed correctly
- Reattach the cover by sliding it back into position.
- NOTES: Use 2 "AAA" (1.5 volt) alkaline batteries. Do not use
- rechargeable batteries Remove the batteries from the remote control if the
- system is not going to be used for a long time Do not mix old and new batteries. Do not mix
- alkaline, standard (carbon-zinc) or rechargeable (ni-cad, ni-mh, etc) batteries.

AWARNING Caution for Ingestion. The battery may cause suffocation if swallowed by children.

CARE AND CLEANING

CLEANING

AWARNING

Electrical Shock Hazard

Disconnect power before cleaning

Failure to do so can result in death or electrical shock

- Air Filter The air filters should be cleaned at least every two weeks for your unit to operate at optimum efficiency
- **ACAUTION** DO NOT operate the air conditioner without a filter because dirt and lint will clog it and reduce performance

1. Unplug or disconnect power

- 2. Use only a soft cloth dampened with water to clean the cabinet NOTE:
- .Do not use a liquid or spray cleaner to clean the air
- •DO NOT use chemicals, abrasives, ammonia chlorine bleach, concentrated detergents, solvents or scouring pads. Some of these chemicals/items may damage and/or discolor your air conditioner
- 3. Dry thoroughly with a soft cloth. 4. Plug in or reconnect power.
- To remove:
- 1. Unplug or disconnect power
- 2. Pull to remove upper filter panel. 3. Wash or vacuum the dust from the air filters.
- NOTE: If washed, gently shake the filter to remove the excess water and dust particles trapped in the filter 4. Reinstall the filters.
- 5. Plug in or reconnect power.

Internal Water Tank

- The Water Full indicator ("FL" on the control panel display) illuminates when the internal water tank has filled with condensed water
- To Empty the Internal Water Tank 1. Unplug or disconnect power
- 2. Place a shallow 1 guart or larger pan (not included) below the lower drain located on the back (near the
- bottom) of the air conditioner. 3. Remove the cap and the rubber plug and drain the water tank
- 4. Re-insert the drain plug and screw the cap snugly into place
- 5. Plug in or reconnect power.

Storage

- If the unit is not being used for a long period of time: To Empty the Internal Water Tank:
- 1. Unplug or disconnect power.
- 2. Drain the water from the water tank. (See "Internal Water Tank section" above.)
- 3. Use the original packaging to repack the unit to avoid a buildup of dust or did

E O'

water plug Drain cap

4. Store the air conditioner in a cool, dry location.

How to Insert the Batteries in the Remote Control (Batteries not supplied)

- 1. Remove the battery cover by sliding it according to the NOTES:
- arrow direction. 2. Insert new batteries, making sure that the (+) and (-)
- of battery are installed correctly
- 3. Reattach the cover by sliding it back into position
- Use 2 "AAA" (1.5 volt) alkaline batteries. Do not use rechargeable batteries.
- Remove the batteries from the remote control if the system is not going to be used for a long time.
- Do not mix old and new batteries. Do not mix alkaline. standard (carbon-zinc) or rechargeable (ni-cad, ni-mh etc) batteries

INSTALLATION INSTRUCTIONS

BEFORE YOU BEGIN

- Read these instructions completely and carefully IMPORTANT - Save these instructions for
- local inspector's use.
- **IMPORTANT** Observe all governing codes and ordinances.
- Note to Installer Be sure to leave these instructions with the Consume
- Note to Consumer Keep these instructions for
- future reference.
- Skill level Installation of this appliance requires hasic mechanical skills
- Completion time Approximately 1 hour
- We recommend that two people install this product. Proper installation is the responsibility of the installer
- Product failure due to improper installation is not covered under the Warranty.
- You MUST use all supplied parts and use proper installation procedures as described in these instructions when installing this air conditioner

- ELECTRICAL REQUIREMENTS
- Some models require a 115/120-volt AC, 60-Hz grounded outlet protected with a 15-amp time-delay fuse or circuit breaker

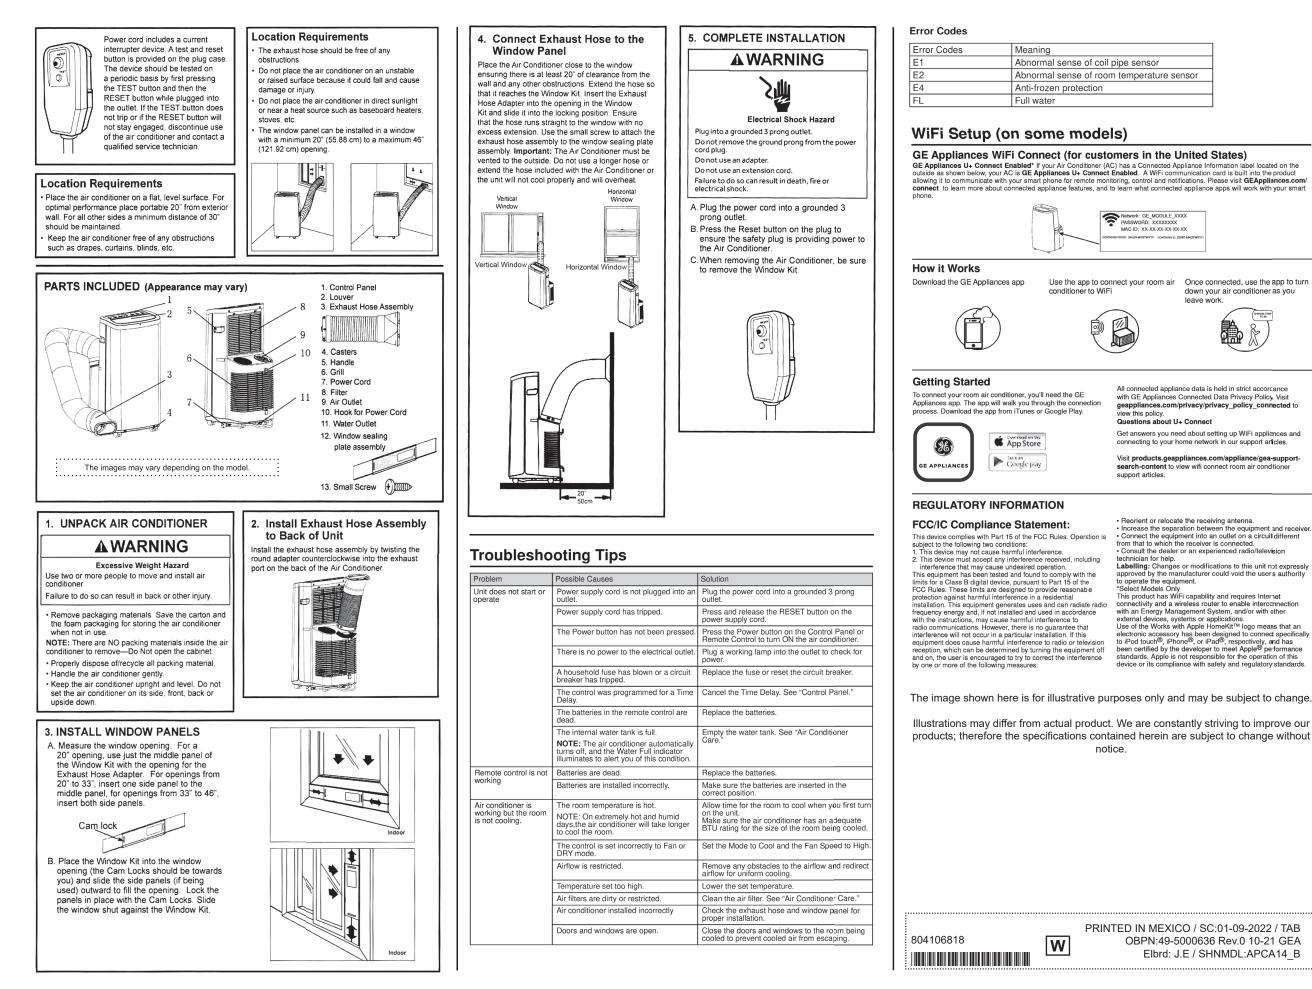

The 3-prong grounding plug minimizes the possibility of electric shock hazard. If the wall outlet you plan to use is only a 2-prong outlet, it is your responsibility to have it replaced with a properly grounded 3-prong wall outlet.

ACAUTION

Do not, under any circumstances, cut or remove the third (ground) prong from the power cord.

Do not change the plug on the power cord of this air conditioner.

Aluminium house wiring may present special problems-consult a qualified electrician.

sor	

down your air conditioner as you leave work

REFURBISHED PRODUCT LIMITED THIRTY DAY WARRANTY

The Refurbished Product Service Center offers the following WARRANTY to the ORIGINAL purchaser of a product which we have refurbished.

This product that has been refurbished is warranted against any electronic or mechanical defects for a period of THIRTY DAYS from the date of the original purchase by the consumer. Since this unit was sold as a refurbished item, the warranty does not apply to any cosmetic appearance items such as scratches. Should a defect occur, the Refurbished Product Service Center will repair or, at its option, replace defective unit/parts with new or rebuilt materials without charge for either parts or labor. Replacement unit/parts will be warranted for the remaining portion of the original warranty period.

This warranty does not cover installation or damage from accident, misuse, abuse, improper wiring, incorrect voltage, operating the unit against the instructions in the owner's manual or any product which has been opened. altered, or tampered with.

This warranty does not cover costs for removal and or installation of the unit for repair. Under no circumstances shall the service center be liable for any special, incidental or consequential damages or for any other expenses incurred by reason of use or sale of this product. This warranty is in lieu of any other warranties expressed or implied warranty of merchantability of fitness for particular use or otherwise

This warranty gives the consumer specific legal rights and they may also have other rights which vary from State to State Some States do not follow the exclusion or limitation of incidental or consequential damages, hence the above exclusion and limitations may not apply

Refurbished Product Service Center 13225 Marquardt Avenue Santa Fe Springs, CA 90670

WARRANTY REPAIR INFORMATION

If you need service on your unit during the 30 day warranty period: please go to

www.ConsumerServiceRefurbish.com_or_call_the Refurbished Product Service Center at 562-946-3531 to obtain the required claim number. Once you obtain your claim number, pack the unit properly (the original carton is ideal for this purpose) along with a copy of your purchase receipt.

Send the unit freight prepaid and insured to

Refurbished Product Service Center,

Att: Customer Service Department 13225 Marguardt Avenue Santa Fe Springs, CA 90670

Your unit will be promptly exchanged and returned to you.

We will refuse to accept delivery of the returned unit unless the assigned claim number appears on the outside of the shipping carton.
