LG OI FD TV

OWNER'S MANUAL Safety and Reference

Important Safety Instruction

- Read these instructions
- Keep these instructions
- Heed all warnings Follow all instructions
- Do not use this apparatus near water
- Clean only with dry doth.
- Do not block any ventilation openings, Install in accordance with the manufacturer's instruction
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat • Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding typ
- plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into yo
- outlet, consult an electrician for replacement of the obsolete outlet. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- Only use attachments/accessories specified by the manufacturer
- Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
- Unplug this apparatus during lightning storms or when unused for long periods of time.
- Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord o plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

By using this product, you agree that all disputes between you and LG arising out of or relating in any way to this product (including but not limited to warranty disputes) shall be resolved exclusively through binding arbitration on an individual basis. The terms of the arbitration agreement (including details on the procedure for resolving disputes) is available at www.lg.com/us/arbitration (USA) or www.lg.com/ca_en/arbitration (Canada).

Before reading this manual

- Read this manual thoroughly before operating your TV, and keep it for future reference
- On the website you can download the manual including installation, using, troubleshooting, specifications, license etc and view its contents on your PC or mohile device
- User Guide: For more information about this TV, read the USER GUIDE embedded in the product, (Depending upon model) - To open the USER GUIDE $\textcircled{\otimes} \rightarrow [\textcircled{\otimes}] \rightarrow [Support] \rightarrow [User Guide]$

Optional Extras

- Optional extras can be changed or modified for quality improvement without any notification. Contact your dealer for buying these items. These devices work only with certain models. The model name or design may be changed due to the manufacturer's circumstances or polic
- A cable to connect antennas and external devices must be purchased separately.

Note

- Product specifications or contents of this manual may be changed without prior potice due to upgrade of product functions The items supplied with your product may vary depending upon the model.
- · Image shown may differ from your TV.

Lifting and moving the TV

- When moving or lifting the TV, read the following to prevent the TV from being scratched or damaged and for safe transportation regardless of its type and size
- It is recommended to move the TV in the box or packing material that the TV originally came in.
- Before moving or lifting the TV, disconnect the power cord and all cables. When holding the TV, the screen should face away from you to avoid
- damage Hold the side and bottom of the TV frame firmly. Make sure not to hold the transparent part, speaker, or speaker grille area.
- Use at least two people to move a large TV.
- When transporting the TV, do not expose the TV to jolts or excessive
- vibration. When transporting the TV, keep the TV upright; never turn the TV on its
- side or tilt towards the left or righ When handling the TV, be careful not to damage the protruding buttons.
- · Avoid touching the screen at all times, as this may result in damage to
- the screen. Do not place the product on the floor with its front facing down without
- padding. Failure to do so may result in damage to the screen When attaching the stand to the TV set, place the screen facing down on a cushioned table or flat surface to protect the screen from scratches.

Mounting on the Table

- 1 Lift and tilt the TV into its upright position on a table. Leave a minimum of 10 cm (4 inches) space from the wall for prope ventilation, (Depending upon model
- Connect the power cord to a wall outlet
- Do not apply foreign substances (oils, lubricants, etc.) to the screw parts when assembling the product. (Doing so may damage the product.) Do not use any unapproved items to ensure the safety and lifespan of the product
- Any damages or injuries by using unapproved items are not covered by the warranty.
- If you install the TV on a stand, you need to take actions to prevent the product from overturning. Otherwise, the product may fall over, which may cause injury.
- When assembling the stand, ensure that all of the provided screws are attached. If the screws are not fully tightened, the product may tilt or tip over, resulting in damage. Tightening the screws with excessive force
- may cause them to come off due to abrasion of the screw joint. When installing on a cabinet or a shelf using a stand, make sure its width
- is greater than that of the TV. (Depending upon model).
- If the TV is placed on the stand, its screen may be tilted back slightly. If the stand is not level because an object is placed under the stand or it is not on a flat surface, the product may fall and cause injury or product damage, (Depending upon mo

Securing TV to the Wall

- Insert and tighten the eye-bolts or TV brackets and bolts on the back of the TV.
- If there are bolts inserted at the eye-bolts position, remove the bolts
- Mount the wall brackets with the bolts to the wall. Match the location of the wall bracket and the eve-bolts on the rear of the TV.
- Connect the eve-bolts and wall brackets tightly with a sturdy rope or cable. Make sure to keep the rope parallel to the flat surf
- Use a platform or cabinet that is strong and large enough to support the
- TV securely Brackets, bolts, and ropes are optional. You can obtain additiona accessories from your local dealer

HIGH-DEFINITION MULTIMEDIA INTERFACE

Troubleshooting

In TV / HDMI input, press the 🚯 button on the remote control three times to display the model name and serial number on the screen

Cannot control the TV with the remote control.	Check if anything such as tape has been placed over the receiver. Check if there is any obstacle between the product and the remote control. Replace the batteries with new fresh ones.
No image display and no sound is produced.	Check if the product is turned on. Check if the power cord is connected to a wall outlet. Check if there is a problem in the wall outlet by connecting other products.
The TV turns off suddenly.	Check the power control settings: The power supply may be interrupted. Check if the auto-off function is activated in the settings menu. The auto-off function may have worked. This product is equipped with an auto-off function that automatically turns off the power if the remote control is not used for 15 minutes without an input signal.
Abnormal Display	 If the product feels cold to the touch, there may be a small "flicker" when it is turned on. This is normal, there is nothing wrong with product. This panel is an advanced product that contains millions of pixels. You may see tiny black dots and/or brightly colored dots (white, red, blue or green) at a size of 1 ppm on the panel. This does not indicate a malfunction and does not affect the performance and reliability of the product. This phenomenon also occurs in third-party products and is not subject to exchange or refund. You may find different hightness and color of the panel depending upon your viewing position(left/right/top/down). This phenomenon occurs due to the characteristic of the panel. It is not related with the product performance, and it is not malfunction. Awoit dowing the screen or holding your finger(s) agairst it for long periods of time. Doing so may produce some temporary distortion effects on the screen.
Generated Sound	 Cracking noise A cracking noise that occurs when watching or turning off the TV is generated by plastic thermal contraction due to temperature and humidity. This noise is common for products where thermal deformation is required. Electrical circuit humming/panel buzzing A low level noise is generated from a high-speed switching circuit, which supplies a large amount of current to operate a product. It varies depending upon the product. This generated sound does not affect the performance and reliability of the product.
The TV does not turn on continuously due to Always Ready mode operation or does not automatically turn on by sensor.	 The motion sensor is located on the bottom center of the TV. The motion sensor is only supported by some models. If there is a foreign substance on the motion sensor, it may not work properly. If the environment around the TV is too bright or too dart, the motion sensor may not work properly. Obstades in front of the TV may affect the detection function or themotion sensor. It can operate by recognizing changes in lighting around the TV or movement of objects (pets/robot vacuum cleaners, etc.). To stop using the Always Ready mode in ([®]) → [([®])] → [General] → [Always Ready] → [Enable the function], or to us conly the General Always Ready mode, turn off the screen, and then stop using the motion sensor in [Always Ready Settings]. The screen-on function with the motion sensor can be set by adjusting the performance of the sensor through the [Always Ready Settings].

Make sure to wring any excess water or cleaner from the cloth

Do not spray water or cleaner directly onto the TV screet

· Make sure to spray just enough of water or cleaner onto a dry cloth to wipe the screen

· Accessory type and quantity may vary depending on the model

. The cables mentioned in this guide is not supplied with your unit.

and press [Pixel Cleaning].

Image Retention

oom) to remove the black bars.

Unlike regular LED/LCDs, OLED TVs produce images that emit light for each pixel, achieving a perfect black color and delivering clear images without

Due to the nature of the organic materials used to achieve high-resolution image quality, OLED displays generally experience image retention on the screen, which can be a persistent phenomenon. This phenomenon is observed in all OLED panels, and although recommended picture modes can minimize image retention, current technology cannot completely prevent this from occurrina.

Displaying the same image for a long time or repeatedly displaying the same image can cause image retention on the screen, which is a common nenon in OLED panel products due to the nature of the product. This product has a built-in screen protection feature. Avoid displaying images that re likely to cause image retention, and follow the recommend

Images that are likely to cause image retention

- Images with black areas on the top and bottom and/or the left and right sides of the screen.
- Images whose aspect ratio is 4:3 or 21:9. Images that are fixed for a long time, such as channel number, station

FCC NOTICE

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference and (2) this device must accept any interference received, including interference that may cause undesired operation. Any hanges or modifications in construction of this device which are not expressly approved by the party responsible for compliance could void the user's

authority to operate the equipment and For indoor use only, use outdoors or in other modes not covered by this manual may violate the FCC regulation and iolate the user authority to use the product.

FCC Radio Frequency Interference Requirements (for UNII devices)

High power radars are allocated as primary users of the 5.25 to 5.35 GHz and 5.65 to 5.85 GHz bands. These radar stations can cause interference with and/or damage this device. This device cannot be co-located with any other transmitter

FCC RF Radiation Exposure Statement

(For having wireless function (WLAN, Bluetooth....))

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment should be installed and operated with minimum distance 20 cm (7.8 inches) between the antenna and your body. Users must follow the specific operating instructions for satisfying RF exposure compliance

Industry Canada Statement

(For having wireless function (WLAN, Bluetooth,...))

QUIPMENT. SUCH MODIFICATIONS COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two condition 1) This device may not cause interference

(2) This device must accept any interference, including interference that may cause undesired operation of the device

IC Radiation Exposure Statement

(For having wireless function (WLAN, Bluetooth,...))

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm (7.8 inches) between the antenna & your body.

NOTE THE MANUEACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV INTERFERENCE CAUSED BY UNAUTHORIZED MODIFICATIONS TO THIS

RSS-247 Requirement

(For product having the wireless function using 5 GHz frequency bands)

- (1) The device for operation in the band 5150–5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems;
- (2) For devices with detachable antenna(s), the maximum antennagain permitted for devices in the bands 5250-5350 MHz and 5470-5725 MHz shall be such that the equipment still complies with the e.i.r.p. limit:
- (3) For devices with detachable antenna(s), the maximum antennagain permitted for devices in the band 5725-5850 MHz shall be such that the equipment still complies with the e.i.r.p. limits as appropriate; and
- (4) (For devices operating in the band 5250-5350 MHz having an e.i.r.p. greater than 200 mW) Antenna type(s), antenna models(s), and worst-case tilt angle(s) necessary to remain compliant with the e.i.r.p. elevation mask requirement set forth in section 6.2.2.3 of RSS-247 shall be clearly indicated.
- Users should also be advised that high-power radars are allocated as primary users (i.e. priority users) of the bands 5250-5350 MHz and 5650-5850 MHz and that these radars could cause interference and/or damage to LE-LAN device

NOTE TO CABLE/TV INSTALLER

This reminder is provided to call the CATV system installer's attention to Article 820-40 of the National Electric Code (U.S.A.). The code provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of the cable entry as practical

WARNING! (STABILITY HAZARD)

- rision set may fall, causing serious personal injury or death. Many injuries, particularly to children, can be avoided by taking simple precautions such as: ALWAYS use cabinets or stands or mounting methods recom ALWAYS use furniture that can safely support the television set
- ALWAYS ensure the television set is not overhanging the edge of the supporting furniture
- ALWAYS educate children about the dangers of climbing on furniture to reach the television set or its controls
- ALWAYS route cords and cables connected to your television so they cannot be tripped over, pulled or grabbe NEVER place a television set in an unstable location.
- NEVER place the television set on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television set to a suitable support. NEVER place the television set on cloth or other materials that may be located between the television set and supporting furnitur
- NEVER place items that might tempt children to climb, such as toys and remote controls, on the top of the television or furniture on which the television is placed.

existing television set is going to be retained and relocated, the same considerations as above should be applied

Using Always Ready

(Depending upon model)

You can operate the TV and connect to Bluetooth with direct voice recognition while the power is off.

- $() \rightarrow (:) \rightarrow [General] \rightarrow [Always Ready], setting [Enable the$ function] to or
- Pressing the 🕲 button while watching TV switches the screen to [Always Ready] that is turned on, and pressing the 🕲 button once more turns the screen to [Always Ready] that is turned off.
- * Press the 🙆 (Home) button or the 🕤 (Back) button to watch TV when the screen is in [Always Ready] that is turned on.
- * Press the 🔿 Wheel (OK) button to display the wallpaper when the screen is in [Always Ready] that is turned off, and press the (1) button to watch TV.

Using Always Ready may increase energy consumption.

 For models with motion sensors such as 62 if you set screen on with the motion sensor, the TV will turn on by recognising the motion. • For more information about the feature, refer to the $\textcircled{\otimes} \rightarrow \textcircled{:} \rightarrow$ $[Support] \rightarrow [User Guide] \rightarrow [Troubleshooting] \rightarrow [Learn More]$ About Always Ready]

Connecting Smart Devices using NFC Tagging

NFC is technology that uses Near Field Communication (13.56 MHz) allowing you to conveniently send and receive information without separate settings. By bringing a smart device near the NFC-enabled emote control, you can install the LG ThinQ app and connect the device to the TV.

- 1 Turn on NFC in the smart device's settings. To use NFC with Android devices, set the NFC option to enable 'read/write tags' in the smart device's settings. The NFC settings may vary depending upon the
- 2 Bring the smart device near the 🔃 (NFC) on the remote control. The uired distance for NFC tagging is about 1 cm (0.39 inches).
- 3 Follow the instructions to install the LG ThinO app on your smart
- 4 Retagging the smart device to the remote control allows you to conveniently access various features on the connected TV through th LG ThinO app.

- · This feature is available for NFC-enabled smart devices only.
- · This feature is only available if the remote control has an NFC logo

REFURBISHED PRODUCT LIMITED NINETY DAYS WARRANTY

The Refurbished Product Service Center offers the following WARRANTY to the ORIGINAL purchaser of a product which we have refurbished

This product that has been refurbished is warranted against any electronic or mechanical defects for a period of NINETY DAYS from the date of the original purchase by the consumer. Since this unit was sold as a refurbished item, the warranty does not apply to any cosmetic appearance items such as scratches. Should a defect occur, the Refurbished Product Service Center will repair or, at its option, replace defective unit/parts with new or rebuilt materials without charge for either parts or labor. Replacement unit/ parts will be warranted for the remaining portion of the original warranty period.

This warranty does not cover installation or damage from accident, misuse, abuse, improper wiring, incorrect voltage, operating the unit against the instructions in the owner's manual or any product which has been opened, altered, or tampered with.

This warranty does not cover costs for removal and or installation of the unit for repair. Under no circumstances shall the service center be liable for any special, incidental or consequential damages or for any other expenses incurred by reason of use or sale of this product. This warranty is in lieu of any other warranties expressed or implied warranty of merchantability of fitness for particular use or otherwise.

This warranty gives the consumer specific legal rights and they may also have other rights which vary from State to State. Some States do not follow the exclusion or limitation of incidental or consequential damages, hence the above exclusion and limitations may not apply.

> Refurbished Product Service Center 13225 Marquardt Avenue Santa Fe Springs, CA 90670.

WARRANTY REPAIR INFORMATION

f you need service on your unit and this product requires repair during the 90 days warranty period; please go to www.ConsumerServiceRefurbish.com or call the Refurbished Product Service Center at 562-946-3531 to obtain the required return authorization (RA) number. Pack the unit properly (the original carton is ideal for this purpose) along with a copy of your purchase receipt and a letter describing the problem. Send the unit freight prepaid and insured to:

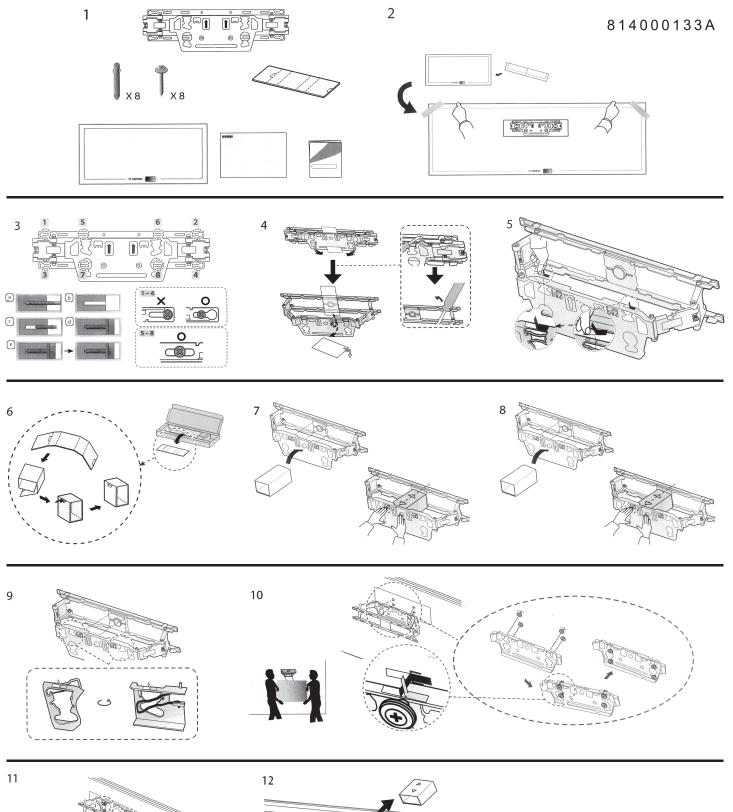

Refurbished Product Service Center

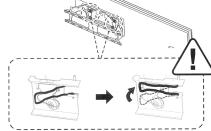

Att: Customer Service Department 13225 Marquardt Avenue Santa Fe Springs, CA 90670 Your unit will be promptly repaired and returned to you Ne will refuse to accept delivery of the returned unit unless the assigned RA number appears on the outside of the shipping carton
