Safety Information

FCC Related Information

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Pursuant to FCC regulations, you are cautioned that any changes or modifications not expressly approved in this manual could void your authority to operate this equipment.

Safety and Regulatory

FCC regulations restrict operation of this device to indoor use only.

Compatible Wall-Mount Bracket Information

Use the following Sony Wall-Mount Bracket with your TV model.

TV Model No.	XR-77A80K / XR-77A80CK / XR-65A80K / XR-65A80CK / XR-55A80K / XR-55A80CK
Wall-Mount Bracket Model No.	SU-WL855*1

Use with other Wall-Mount Brackets*2 may cause instability and could result in property damage or injury.

- *1 Only for limited region/country/model.
- *2 For instructions on using the Wall-Mount Bracket with your TV please go to <https://www.sony.com/am/support> for your TV model and download "Wall-Mount Bracket".

Before setting up your TV

Some TV models are packaged with a detached Table-Top Stand so you can mount your TV to a wall right away. See "Installing the TV to the Wall" if you want to mount the TV to a wall. If you are not mounting the TV to a wall, you will need to attach the Table-Top Stand (refer to the Setup Guide).

- Be sure to consider the following while setting up your TV:
- Disconnect all cables when carrying the TV.
 - Two or more persons are needed to transport a large TV set.
 - Correct hand placement while carrying the TV is very important for safety and to avoid damage.

- When handling or mounting the TV set, do not lay down the TV (except XR-55A80K / 55A80CK).

- Ensure your TV has adequate ventilation, refer to the safety documentation.
- For best picture quality, do not expose the screen to direct illumination or sunlight.
- Avoid installing the TV in a room with reflective wall and floor materials.
- Avoid moving the TV from a cold area to a warm area. Sudden room temperature changes may cause moisture condensation. This may cause the TV to show poor picture and/or poor color. Should this occur, allow moisture to evaporate completely before powering the TV on.

Securing the TV

Sony strongly recommends taking measures to prevent the TV from toppling over. Unsecured TVs may topple and result in property damage, serious bodily injury or even death.

Preventing the TV from Toppling

- Secure the TV to a wall and/or Stand.
- Do not allow children to play or climb on furniture and TV sets.
- Avoid placing or hanging items on the TV.
- Never install the TV on:
 - slippery, unstable and/or uneven surfaces.
 - furniture that can easily be used as steps, such as a chest of drawers.
- Install the TV where it cannot be pulled, pushed, or knocked over.
- Install the TV so that the TV's Table-Top Stand does not protrude out from the Stand (not supplied). If the Table-Top Stand protrudes out from the Stand, it may cause TV set to topple over, fall down, and cause personal injury or damage to the TV.

- Route all AC power cords and connecting cables so that they are not accessible to curious children.

Recommended Measures to Secure the TV

Consider the following measures when securing your TV to a Stand (not supplied).

- Secure the Stand for the TV. Make sure the Stand can adequately support the weight of the TV. Use two angle braces (not supplied) to secure the Stand. For each angle brace use the appropriate hardware to:
 - Attach one side of the angle brace to the wall stud.
 - Attach the other side to the Stand.

- Secure the TV to the Stand. Use the optional hardware listed as follows (not supplied):
 - M6 machine screws (screwed into the TV's rear cover).
 - A screw or similar (attach it to the Stand).
 - Rope or chain (strong enough to support the weight of the TV). Make sure that there is no excess slack in the rope or chain.

The length of the M6 machine screw differs depending on the rope or chain diameter. Please refer to below illustration.

- Anchor the TV to the wall by using bolts, wall anchor and chain (or rope).

Please refer to below illustration for M6 eye bolt length.

Note

- Your TV is shipped with screws attached to the rear of the TV depending on the TV model. (They are fastened in the screw holes for wall mounting.) Be sure to remove the upper two screws prior to anchoring the TV to a wall.
- Securing the TV to the Stand without securing the TV and the Stand to the wall provides minimum protection against the TV toppling over. For further protection, be sure to follow the three measures recommended.

Protecting the TV Screen (OLED TV)

Precautions to Protect the Screen from Damage

Image retention

OLED TV's are susceptible to image retention (burn-in) due to the characteristics of the materials used. Image retention may occur if images are displayed in the same location on the screen repeatedly or over extended periods of time. This is not a malfunction of the TV. Avoid displaying images that may cause image retention.

The following are examples of images that may cause image retention:

- Content with black bars either on the top and bottom and/or the left and right sides of the screen. (For example, Letterboxed, 4:3 screen, Standard definition)
- Static images such as photos.
- On-screen menus, program guides, channel logos etc.
- Static content from applications.
- On-screen tickers, such as those used for news and headlines.

To reduce the risk of image retention:

- Sony recommends that you turn off the TV normally by pressing the power button on the remote control or the TV.
- Fill the screen by changing [Wide mode] to eliminate the black bars. Select [Wide mode] other than [Normal].
- Turn off the OSD (On Screen Display) by pressing **123** (Control menu) button and select [Info], and turn off the menus from connected equipment.
- Avoid displaying static images with bright colors (including white), clocks or logos on any portion of the screen.
- Set the picture settings based on the ambient conditions. The Standard Picture is recommended for home use and when viewing content that often displays the station logos, etc.

The TV has following features to help reduce/prevent image retention.

Panel refresh

A panel refresh will adjust the panel uniformity. Panel refresh can be performed and should only be used when image retention is very noticeable.

Caution:

- The Panel refresh function may affect the panel. Do not perform Panel refresh more than once a year as it may affect the usable life of the panel.
- Panel refresh takes about ten minutes to complete.
- The effectiveness of a panel refresh may vary depending on the image retention condition.

Pixel shift

Automatically moves the image on the screen to prevent image retention.

Other feature

The screen brightness is automatically reduced when displaying still images, clocks, bright colors or logos etc.

Using TV as Part of Audio System

Note

- Before connecting cables, disconnect the AC power cord of both TV and AV receiver.
- Refer to the instruction manual of the Audio system with S-CENTER OUT terminal for detail.

Remote Control and TV

The remote control shape, layout, availability and function of remote control buttons may vary depending on your region/country/TV model/TV settings*1.

(Batteries not supplied)

- 1 **⏻ (Power)**

TV: Display TV channel list or switch to input.

⚙️ (Quick settings): Display Quick Settings.

📶 (Input): Display and select the input source, etc.

123 (Control menu): Display the Control menu.

- 2 **▲ / ▼ / ◀ / ▶ / ⏻:** On screen menu navigation and selection.

⏮ (Back)

🏠 (Home)

🗣️ (Google Assistant) / 🎤 (Microphone): Use Google Assistant*5x6.

- 3 **🔊 + / - (Volume)**

🔇 (Mute)*7

CH + / - (Channel)

▶ / ⏮

📺 (Guide): Display the digital program guide of TV or Cable/Satellite box*8.

- 4 **App buttons**

- 5 **BUILT-IN MIC SWITCH*5:** Turn on/off the built-in MIC.

- 6 **⏻ (Power)**

- 7 **Remote Control sensor / Light sensor / LED**

- 8 **Built-in MIC*5x6x9:** To enable the built-in MIC, press the Google Assistant button on the remote control and follow the on-screen instructions.

*1 For other remote control models, refer to the online Help Guide for details.

*2 RMF-TX900U only. To see the model name of the remote control, open the remote control cover and see the label on the remote control.

*3 The remote control backlight will illuminate when the light sensor detects the ambient light is low. Automatic illumination of the backlight can be turned off.

*4 The buzzer will emit a sound when you use the remote finder function. Refer to the online Help Guide for details.

*5 Only for limited region/country/model/ language.

*6 Google Assistant requires an Internet connection.

*7 Accessibility shortcut is available by pressing and holding 🔇 (Mute).

*8 [Cable/Satellite box setup] setting is required.

*9 Power consumption will increase when the built-in MIC is enabled as it is always listening.

Guidelines for IR Remote Control

- Point your remote control directly at the IR sensor located on your TV.
- Make sure that no objects are blocking the path between the remote control and the IR sensor on your TV.
- Fluorescent lamps can interfere with your remote control; try turning off the fluorescent lamps.
- If you are having problems with the remote control, reinsert or replace your batteries and make sure that they are correctly inserted.

Installing the TV to the Wall (Wall mount kit not included)

Using the optional Wall-Mount Bracket (SU-WL855 only)* (not supplied)

Wall-Mount Bracket Installation Information

For instructions on Wall-Mount Bracket installation, see the Installation Information (Wall-Mount Bracket) on the Sony Customer Support website for your TV model at the following address.

<https://www.sony.com/am/support>

- Follow the instruction guide provided with the Wall-Mount Bracket for your model. Sufficient expertise is required in installing this TV, especially to determine the strength of the wall for withstanding the TV's weight.
- Sony is not liable for any damage or injury caused by mishandling or improper installation.
- The length of the screw for Wall-Mount Bracket differs depending on the Wall-Mount Bracket thickness. Please refer to below illustration.

- Be sure to store the unused screws and Table-Top Stand in a safe place until you are ready to attach the Table-Top Stand. Keep the screws away from small children.

Note

- Read the supplied safety documentation for additional safety information.

* Only for limited region/country/model.

Using the optional Wall-Mount Bracket (Except SU-WL855) (not supplied)

This TV's instruction manual only provides the steps to prepare the TV for Wall-Mount installation before it is installed on the wall.

Your TV can be mounted to a wall using a suitable Wall-Mount Bracket (not supplied). If the Table-Top Stand is attached to the TV, the TV may require detaching the Table-Top Stand; see "Detaching the Table-Top Stand from the TV".

Prepare the TV for the Wall-Mount Bracket before making cable connections.

For product protection and safety reasons, Sony strongly recommends that installation of your TV on the wall be performed by qualified professionals. Do not attempt to install it yourself.

- Follow the instruction guide provided with the Wall-Mount Bracket for your model. Sufficient expertise is required in installing this TV, especially to determine the strength of the wall for withstanding the TV's weight.
- The screws for installing the Wall-Mount Bracket to the TV are not supplied.
- The length of the screw for Wall-Mount Bracket differs depending on the Wall-Mount Bracket thickness. Please refer to below illustration.

- Refer to the following table for wall-mount hole pattern.

Model Name	Wall-mount hole pattern
	(a) x (b)
XR-77A80K XR-77A80CK XR-65A80K XR-65A80CK XR-55A80K XR-55A80CK	300 x 300 mm

- Be sure to store the unused screws and Table-Top Stand in a safe place until you are ready to attach the Table-Top Stand. Keep the screws away from small children.

Note

- Read the supplied safety documentation for additional safety information.

* Only for limited region/country/model.

- 1 Remove the screws from the rear of the TV.

- 2 Attach the Wall-Mount Attachment (supplied with the TV) to the rear of the TV (to make it parallel with the wall).

- 3 Attach the Wall-Mount Bracket (not supplied) using the screws (not supplied).

Note

- If using an electric screwdriver, set the torque at approximately 1.5 N·m (15 kgf·cm).
- Be sure to fasten the Wall-Mount Attachment when attaching them to the TV. Use only a flat head screwdriver to install the Wall-Mount Attachment. Use of another tool might result in over torquing the Wall-Mount Attachment and damaging the TV.

Detaching the Table-Top Stand from the TV

- 1 Remove one side of the Table-Top Stand at a time. Firmly hold the Table-Top Stand securely with both hands while the other people lift up the TV.

- 2 Repeat the previous step and remove the other side of the Table-Top Stand.

Note

- Three or more people are required to detach the Table-Top Stand.
- Be careful not to use excessive force while detaching the Table-Top Stand from the TV as it may cause the TV set to fall resulting in personal injury or physical damage to the TV.
- Take care when handling the Table-Top Stand to prevent damage to the TV.
- Be careful when lifting the TV as the Table-Top Stand is detached, the Table-Top Stand may topple over and cause personal injury.
- Take care when removing the Table-Top Stand from the TV to prevent it from falling over and damaging the surface that the TV is sitting on.
- Do not remove the Table-Top Stand for any reason other than to install corresponding accessories on the TV.
- Be sure the TV is vertical before turning on. To avoid uneven picture uniformity do not power on the TV with the panel facing down.

Optional Camera and Microphone Unit (not supplied) Cable Management

Troubleshooting

General troubleshooting for issues like: black screen, no sound, frozen picture, TV does not respond, or network is lost, do the following steps.

- 1 Restart your TV by pressing the power button on the remote control for about five seconds. The TV will restart. If the TV does not recover, try unplugging the AC power cord then press the power button on the TV and release it. Wait for two minutes, and plug in the AC power cord. Or, press the power button on the TV for about 40 seconds until the TV turns off.
- 2 Refer to the Help menu shown below.
- 3 Connect your TV to the Internet and perform a software update. Sony recommends you to keep your TV software updated. Software updates provide new features and performance improvements.
- 4 Perform the factory data reset.

When you plug in the TV, the TV may not be able to turn on for a while even if you press the power button on the remote control or the TV.

It takes time to initialize the system. Wait for about one minute, then operate it again.

- How to reset the TV to factory settings
- WARNING: The reset will clear all of your customized settings including the parental lock setting.
- You can reset the TV to factory settings by selecting [Factory data reset]. How to select [Factory data reset], refer to the online Help Guide.
 - To force factory data reset, unplug the AC power cord. Press and hold ⏻ button on the TV, then plug in the AC power cord.
 - For security purposes, be sure to remove all personal and account information before discarding, selling or passing your TV to someone else by: unlinking/ unregistering, signing out of and deactivating all network services as well as factory reset the TV.

The remote control does not function.

- Replace the batteries.

The parental lock password has been forgotten.

- Enter 4357 for the PIN and enter the new PIN.

The screen becomes darker while watching TV.

- If the whole image or part of the image remains still, the screen brightness will be gradually reduced to prevent image retention. This is not a malfunction of the TV.

You are concerned about image retention.

If the same image is displayed repeatedly or for long periods of time, image retention may occur. To reduce image retention, we recommend that you turn off the TV normally by pressing the power button on the remote control or the TV.

- Note
- Perform Panel refresh only when image retention is particularly noticeable. Avoid performing Panel refresh more than once a year because it may affect the usable life of the panel.
 - Images that include clocks, logos and bright colors (including white) easily cause image retention. Avoid displaying these types of images for long periods of time, otherwise image retention may occur.

The message [Panel refresh did not finish...] is displayed.

When i) the TV is turned on or ii) the AC power cord is unplugged during the Panel refresh, the Panel refresh is not completed. Please avoid the above two conditions during the Panel refresh.

For more information on troubleshooting, refer to the Help Guide.

Press (Input) on the remote control and select [Help]. If [Help] does not exist, select [Edit] and add [Help].

Specifications

- System
- TV system: Depend on your country/area selection/TV model
- NTSC: American TV Standard
