Roku TV

974 series Quick Start Guide

Please read this manual carefully before operating your unit and retain for future reference.

1 Using the remote (Batteries not included)

How to install the batteries in the remote

Open the battery cover by firmly sliding down. Insert 2 AAA (1.5 V) batteries matching the polarity indicated inside battery compartment of the remote.

NOTE: The remote control vary depend of model: The buttons on the remote control may have a different name or location than the remote control shows in this manual.

2 Prepare to activate your smart TV

What you need (not included)

- Wireless router** (needed to connect your TV to the Internet)
- Computer, tablet, or smartphone** (needed for setup)
- Internet connection** (needed for streaming)
- Roku account** (needed to access entertainment across thousands of streaming channels)

Key things to know: A paid subscription or other payments may be required for some streaming channel content. Channel availability is subject to change and varies by country.

Your Roku account

During guided setup, you will be prompted to create your Roku account online. See more information below.

- Roku accounts are free, and while a valid credit card number is not required to create your account, providing your credit card information makes renting and purchasing entertainment from the Roku Channel Store fast and convenient.
- If you choose to save a payment method, you will be able to seamlessly rent content, download channels and subscribe to services without having to enter your credit card information each time.
- A unique PIN can be added to the account to prevent unauthorized purchases.

- Tip:**
- Roku does not charge for activation support – **beware of scams.**
 - For more information, contact a service center.

3 Plug in and turn on TV

Connect the AC power cord to the AC outlet. Press the power button on the TV's remote.

4 Follow the on-screen instructions

- Once your Roku TV powers on, follow the on-screen instructions. Your Roku TV will walk you through initial setup and help connect to your preferred wireless network.
- Your TV will automatically detect wireless networks in your area. Have your network name and password handy and follow the easy on-screen instructions.
 - If you are not ready to connect your TV to a wireless network, you can still use it as a regular TV by selecting "Connect to the Internet later".
- Once connected your TV will automatically update with the latest software. This can take a few minutes to update.

Once you complete guided setup, your TV will automatically update with the latest software. Your new Philips Roku TV automatically receives regular software updates in the background when it's connected to the Internet. This allows it to give you a better experience over time.

NOTE: The actual descriptions of control panel and their locations may vary depending on the model.

5 Download the Roku mobile app (optional)

The free Roku mobile app allows you to use your mobile device as a fully functioning remote with voice search and keyboard.

- Download the Roku mobile app on your smartphone or tablet through Google Play or Apple App Store.
- Simply search for "Roku app" and choose the "Roku" app provided by Roku Inc.
- Follow the on-screen prompts and you are on your way.

6 Connect antenna or cable (optional)

With the tuner built-in you can connect your TV to antenna or cable (free cable only, does not work with cable TV using a set-top box) and enjoy over-the-air entertainment.

- When the setup wizard is complete, select the Live TV tile from the home screen.
- Follow the on-screen instructions.
- Whenever you want to watch local broadcast TV, select this tile.

User interface may vary.

- Tip:**
- While in the antenna TV input, you can use your remote to access additional features.
 - D-Pad left: Pressing this key brings up the smart guide, a list of antenna TV channels.
 - Play/Pause: Pause live TV for up to 90 minutes when a 16 GB USB drive is connected.
 - RWD scan and FWD scan: Allows you to fast forward and rewind while using the Live TV Pause feature.
 - D-Pad left and right: Allows you to scroll through the paused Live TV and select scenes.

7 Parental Controls

Parental controls enable you to control whether the members of your household can view certain kinds of broadcast TV programs. When a program or feature is blocked, you can unblock it by entering a parental control PIN that only you know.

- Note:**
- Parental controls block content from the TV tuner and from streaming options, if any, on the Home screen menu. Parental controls do not block content on other TV inputs or content from streaming channels you add to your TV.

Creating a parental control PIN

To create a new parental control PIN, from the Home screen menu navigate to **Settings > Parental controls**. The screen displays a numeric keypad. Use the purple directional pad to enter a four-digit code, and then press **OK**. Then repeat the process to enter the same PIN again, just to make sure you correctly entered the PIN you want to use.

- Important:**
- If you forget your parental control PIN, the only way to recover is to perform a factory reset operation.

Blocking broadcast TV programs

Enabling parental control of TV programs

The first step in blocking TV programs is to enable parental control of TV programs. To enable parental control of TV programs:

- In the Home screen menu, navigate to **Settings > Parental controls**, and then enter your parental control PIN.
- In the **Parental controls** screen, navigate to **TV tuner > Parental control of TV shows**.
- Make sure the check box next to **Enable parental controls** is checked. If no; highlight it and press **OK**.

Blocking based on US TV ratings

To block TV programs based on US television ratings:

- From the Home screen menu, navigate to **Settings > Parental controls**, and then enter your parental control PIN.
- In the **Parental controls** screen, navigate to **TV tuner > TV ratings**. Choose among the following settings:
 - Entire ratings** – Highlight the rating you want to block, and then navigate to the right and select the first option that blocks the entire rating level (and all higher rating levels).
 - Individual content types** – Highlight the rating that contains the content type you want to block, and then select the content types you want to block from among those listed. Remember that blocking a content type in one rating blocks the equivalent content type in all higher rating levels.

8 Troubleshooting

Category	Problem	Tip
Power	No power	- Ensure that the AC outlet supplies the proper voltage. Plug another electrical appliance into the AC outlet to ensure that the AC outlet operates normally. - If a power failure occurs, unplug the AC power cord for 1 minute to allow the unit to reset itself.
Remote	Remote buttons are not functional.	Re-insert or replace the AAA batteries with their polarities (+/-) as indicated on the remote battery area.
Network	Cannot connect the network.	- Check if your router and/or modem is properly connected. - Check if the Ethernet cable connection between the TV and your router or modem is properly secured. - Power cycle the router and/or modem. - Check your network settings.
	Slow Data Connection or buffering.	- Check the settings between your router and ISP modem or gateway (if applicable). - Connect to a stable wireless connection from home wireless or wired network. - The use of mobile hot spots or public wireless connections is not recommended.
Picture on HDMI Input	Television has sound with no picture or abnormal picture.	- HDMI EDID Version setting is set to a different mode than your source device. - Change the resolution output of your source device.
Sound on HDMI with external devices	Television has no sound.	Please check to be sure the device is connected to the HDMI 1 (eARC/ARC) input on the TV.

Safety instruction

Know these safety symbols

CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS ARE INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

The caution marking is located on the rear or bottom of the cabinet.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the apparatus's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the apparatus.

The symbol for CLASS II or double insulated electrical apparatus. This apparatus has been designed in such a way that it does not require a safety connection to electrical earth.

WARNING:

To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture. Apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.

CAUTION:

To prevent electric shock, match wide blade of plug to wide slot, fully insert.

CHILD SAFETY:

PROPER TELEVISION PLACEMENT MATTERS

THE CONSUMER ELECTRONICS INDUSTRY CARES

- Manufacturers, retailers and the rest of the consumer electronics industry are committed to making home entertainment safe and enjoyable.
- As you enjoy your television, please note that all televisions – new and old- must be supported on proper stands or installed according to the manufacturer's recommendations. Televisions that are inappropriately situated on dressers, bookcases, shelves, desks, speakers, chests, carts, etc., may fall over, resulting in injury.

TUNE IN TO SAFETY

- ALWAYS** follow the manufacturer's recommendations for the safe installation of your television.
- ALWAYS** read and follow all instructions for proper use of your television.
- NEVER** allow children to climb on or play on the television or the furniture on which the television is placed.
- NEVER** place the television on furniture that can easily be used as steps, such as a chest of drawers.
- ALWAYS** install the television where it cannot be pushed, pulled over or knocked down.
- ALWAYS** route cords and cables connected to the television so that they cannot be tripped over, pulled or grabbed.

WALL OR CEILING MOUNT YOUR TELEVISION

- ALWAYS** contact your retailer about professional installation if you have any doubts about your ability to safely mount your television.
- ALWAYS** use a mount that has been recommended by the television manufacturer and has a safety certification by an independent laboratory (such as UL, CSA, ETL).
- ALWAYS** follow all instructions supplied by the television and mount manufacturers.
- ALWAYS** make sure that the wall or ceiling where you are mounting the television is appropriate. Some mounts are not designed to be mounted to walls and ceilings with steel studs or cinder block construction. If you are unsure, contact a professional installer.
- Televisions can be heavy. A minimum of two people is required for a wall or ceiling mount installation.

MOVING AN OLDER TELEVISION TO A NEW PLACE IN YOUR HOME

- Many new television buyers move their older CRT television into a secondary room after the purchase of a flat-panel television. Special care should be made in the placement of older CRT televisions.
- ALWAYS** place your older CRT television on furniture that is sturdy and appropriate for its size and weight.
- NEVER** place your older CRT television on a dresser where children may be tempted to use the drawers to climb.
- ALWAYS** make sure your older CRT television does not hang over the edge of your furniture.

CTA.tech/safety Consumer Technology

Important safety instructions

- Read these instructions.
- Keep these instructions.
- Heed all warnings.
- Follow all instructions.
- Do not use this apparatus near water.
- Clean only with dry cloth.
- Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- Only use attachments / accessories specified by the manufacturer.
- Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart / apparatus combination to avoid injury from tip-over.
- Unplug this apparatus during lightning storms or when unused for long periods of time.
- Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

Note to the CATV system installer:

This reminder is provided to call the CATV system installer's attention to Article 820 of the NEC, ANSI/NFPA 70 and Section 54 of the CEC, Part I that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of cable entry as practical.

Example of antenna grounding as per NEC - National Electric Code

If an outside antenna or cable system is connected to the product, be sure the antenna or cable system is grounded so as to provide some protection against voltage surges and built-up static charges. Article 810 of the NEC, ANSI/NFPA 70 and Section 54 of CEC, Part I provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead in wire to an antenna-discharge unit, size of grounding conductors, location of antenna discharge unit, connection to grounding electrodes, and requirements for the grounding electrode.

Notice

Funai Corporation reserves the right to change products at any time without being obliged to adjust earlier supplies accordingly. The material in document is believed adequate for the intended use of the system. If the product or its individual modules or procedures are used for purposes other than those specified herein, confirmation of their validity and suitability must be obtained. Funai Corporation warrants that the material itself does not infringe any United States patents. No further warranty is expressed or implied. Funai Corporation cannot be held responsible neither for any errors in the content of document nor for any problems as a result of the content in document. Errors reported to Funai Corporation will be adapted and published on the Funai Corporation support website as soon as possible.

Pixel characteristics
This LCD product has a high number of color pixels. Although it has effective pixels of 99.99% or more, black dots or bright points of light (red, green or blue) may appear constantly on the screen. This is a structural property of the display (within common industry standards) and is not a malfunction.

Warranty
No components are user serviceable. Do not open or remove covers to the inside of the product. Repairs may only be done by service centers and official repair shops. Failure to do so shall void any warranty, stated or implied. Any operation expressly prohibited in document, any adjustments or assembly procedures not recommended or authorized in document shall void the warranty.

The following FCC/IC RSS applies to the wireless LAN adapter included in this product.

FCC caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.
This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

FCC/IC RF Exposure Compliance
This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines and RSS-102 of the IC radio frequency (RF) Exposure rules. This equipment should be installed and operated keeping the radiator at least 20 cm or more away from your body.

This device complies with Part 15 of FCC Rules and Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of this device.

5150-5250 MHz band is restricted to indoor operations only.
High-power radars are allocated as primary users (i.e. priority users) of the bands 5250-5350 MHz and 5650-5850 MHz and that these radars could cause interference and/or damage to LE-LAN devices.

Compliance with FCC requirement 15.407(c) and IC requirement RSS-210A9.4.4

Data transmission is always initiated by software, which is the passed down through the MAC, through the digital and analog baseband, and finally to the RF chip. Several special packets are initiated by the MAC. These are the only ways the digital baseband portion will turn on the RF transmitter, which it then turns off at the end of the packet. Therefore, the transmitter will be on only while one of the aforementioned packets is being transmitted. In other words, this device automatically discontinues transmission in case of either absence of information to transmit or operational failure.

Positioning the TV

- Large screen TVs are heavy. 2 people are required to carry and handle a large screen TV.
- Make sure to hold the upper and bottom frames of the unit firmly as illustrated.
- Install the unit in a horizontal and stable position.
- Do not install the unit in direct sunlight or in a place subject to dust or strong vibration.
- Depending on the environment, the temperature of this unit may increase slightly. This is not a malfunction.

- When installing this unit in a temperate environment, avoid a place with rapid temperature changes.
 - Operating temperature: 41°F (5°C) to 104°F (40°C)
- This unit should not be used in a tropical environment as it has not been evaluated under such conditions.
- No objects should be placed directly on or under this unit, especially lighted candles or other flaming objects.
- Depending on your external devices, noise or disturbance of the picture and / or sound may be generated if the unit is placed too close to them. In this case, please ensure enough space between the external devices and the unit.
- Do not insert the AC power cord into the power socket outlet before all the connections are made.
- Ensure that you always have easy access to the AC power cord and outlet to disconnect the TV from the AC outlet.
- Before you move the TV, disconnect attached cables to prevent damage to connectors, especially the TV tuner.
- Be sure to unplug the AC power plug from the AC outlet before moving or carrying the unit.
- When moving the TV and then setting it down, please be careful not to pinch the AC power cord under the unit.

Regulatory notices

WARNING: To prevent injury, this apparatus must be securely attached to the furniture / wall in accordance with the instructions. Tipping, shaking or rocking the unit may cause injury / death.

Stability Hazard

A television set may fall, causing serious personal injury or death. Never place a television set in an unstable location. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

- Always use cabinets, stands or mounting instruction recommended by the manufacturer of the television set.
- Always use only furniture that can safely support the television set.
- Always ensure the television set is not overhanging the edge of the supporting furniture.
- Always educate children about the dangers of climbing on furniture to reach the television set or its controls.
- Certainly wire the cords and cables connected to television set that cannot be routed, pulled and pinched.
- Not placing the television set on unstable place.

- Not placing the television set on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television set to a suitable support.
- Not placing the television set on cloth or other materials that may be located between the television set and supporting furniture.
- Not placing anything such as toys or controls that tempts children on a TV or furniture which a TV is placed.

If the existing television set is going to be retained and relocated, the same considerations as above should be applied. Do not place the unit on the furniture that is capable of being tilted by a child and an adult leaning, pulling, standing or climbing on it. A falling unit can cause serious injury or even death. In order to avoid interruption of ventilation, this unit should not be placed in built-in equipment such as a book cabinet, rack, etc., and the vents of this unit should not be covered with anything such as a tablecloth, curtain, newspaper, etc. Make sure that there is enough ventilation space (4 " / 10 cm or more) around this unit. Press  to turn the unit on and go into standby mode. To completely turn off the unit, you must unplug the AC power plug from the AC power outlet. Disconnect the AC power plug to shut the unit off when trouble is found or not in use. The AC plug shall remain readily available.

Never use a gas duster on this TV. The gas trapped inside of this unit may cause ignition and explosion.

Environmental care

The packaging of this product is intended to be recycled. Contact your local authorities for information about how to recycle the packaging. For product recycling information, please visit - www.recycle.philips.com

End of life directives

Philips pays a lot of attention to produce environmental-friendly products in green focal areas. Your new TV contains materials which can be recycled and reused. At the end of its life, specialized companies can dismantle the discarded TV to concentrate the reusable materials and to minimize the amount of materials to be disposed of. Please ensure you dispose of your old TV according to local regulations.

Batteries usage

CAUTION: Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type.

WARNING: Batteries (battery pack or battery installed) should not be exposed to excessive heat such as sunshine, fire or the like.

- Do not mix old and new batteries
- Do not mix alkaline, standard (carbon-zinc) or rechargeable (ni-cad, ni-mh, Li-ion, etc.) batteries.

Disposal of used batteries

The batteries supplied do not contain the heavy metals mercury and cadmium, however in certain localities, disposing batteries with household waste is not permitted. Please ensure you dispose of batteries according to local regulations.

READ THIS FIRST

PLEASE KEEP PACKING MATERIALS FOR FUTURE TRANSPORTATION!

The information is intended for regular installation of this TV (not for wall mount installation).

1 Getting started

Please read the entire instructions once before following them step by step.

A wide open space is recommended for assembly.

Be careful not to injure your fingers and keep children away during assembly.

A Phillips-head screwdriver is required to fasten the stands to the TV set.

It is recommended that two or more people remove the TV set from the box.

Caution for packing when you move/ship

Please pack the unit properly.

Caution! Please save the front cardboard* to use when moving or shipping the TV.

Caution! To avoid damage to the TV screen, do not pack the stands on the same side as the screen.

2 What's in the box

* Accessory type and quantity may vary depending on the model.

3 Installing the stands

Carefully lay the TV set, with the screen side down, on the outer sliplibox so as not to deform or damage chin at the bottom of the unit.

Prior to attaching each stand, make sure to peel off the protectivefilm where each stand goes in so it will not get stuck between the unit and the stand. Fasten the stand to the unit with 2 screws each (included).

Carefully set up the unit.

4 Lifting the TV set

The images shown here are for illustrative purposes only and may be subject to change.

5 Connection overview

* The cables mentioned in this guide is not supplied with your unit.

6 Connecting the power and antenna, cable or satellite

* The actual number of ports and their locations may vary depending on the model.

Wall Mount (Wall mount kit not included)

Wall mount bracket kit

55OLED974/F6	65OLED974/F6	77OLED974/F6	Brand: SANUS	Model #: VLT6	Screw dimension: M6 x 1.378" (35 mm)
55OLED974/F7	65OLED974/F7	77OLED974/F7			

- Compatible wall bracket kits are available from third party vendors and will allow mounting of the TV on the wall.
- The recommended wall mount bracket kit (sold separately) allows the mounting of the TV on the wall.
- For detailed information on installing the wall mount, refer to the wall mount instruction book.
- Funai Corporation is not responsible for any damage to the product or injury to yourself or others if you elect to install the TV wall mount bracket or mount the TV onto the bracket on your own.
- The wall mount bracket must be installed by experts.

When installing the unit on the wall, allow this much space.

Top: 11.8" (30 cm)
Left and right side: 5.9" (15 cm)
Bottom: 3.9" (10 cm)

Funai Corporation is not liable for these types of accidents or injuries noted below.

- Install the wall mount bracket on a sturdy vertical wall.
- If installed onto a ceiling or slanted wall, the TV and wall mount bracket may fall which could result in a severe injury.
- Do not use screws that are longer or shorter than their specified length. If screws too long are used this may cause mechanical or electrical damage inside the TV set.
- If screws too short are used this may cause the TV set to fall.
- Do not fasten the screws by excessive force. This may damage the product or cause the product to fall, leading to injury.
- For safety reasons use 2 people to mount the TV onto a wall mounting bracket.
- Do not mount the TV onto the wall mounting bracket while your TV is plugged in or Turned On. It may result in an electrical shock injury.

Federal communications commission notice

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio or television technician for help.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Modifications

This apparatus may generate or use radio frequency energy. Changes or modifications to this apparatus may cause harmful interference. Any modifications to the apparatus must be approved by Funai Corporation. The user could lose the authority to operate this apparatus if an unauthorized change or modification is made.

Cables

Connections to this device must be made with shielded cables with metallic RFI/EMI connector hoods to maintain compliance with FCC Rules and regulations.
