

Shark®

Lift-Away™ with PowerFins™
HairPro™ and Odor Neutralizer
Technology Upright Vacuum

Please read this manual carefully before operating your unit and retain for future reference.

IMPORTANT SAFETY INSTRUCTIONS FOR HOUSEHOLD USE ONLY

⚠ WARNING

To reduce the risk of fire, electric shock, injury, or property damage, when using an electrical appliance, basic precautions should always be followed, including the following:

READ ALL INSTRUCTIONS BEFORE USING THIS VACUUM

1. Inspect power cord and plug for any damage before use. **DO NOT** use vacuum cleaner with a damaged cord or plug. Turn off all controls before plugging in or unplugging the vacuum cleaner. Store your vacuum cleaner with the power cord secured around the two cord hooks. To minimize the risk of power cord damage, **DO NOT** allow the motorized brushroll to ingest the cord. If this occurs, immediately shut off power to the vacuum and remove the cord.
2. This appliance has a polarized plug. If the plug does not fit fully into the outlet, reverse the plug (one blade is wider than the other). If it still does not fit, contact a qualified electrician. **DO NOT** force into outlet or try to modify to fit.
3. Your vacuum cleaner may consist of a motorized nozzle, wand, hose, and/or vacuum pod. This device contains electrical connections, electrical wiring, and moving parts that potentially present risk to the user. The hose contains electrical wires. **DO NOT** use when damaged, cut, or punctured.
4. Use only identical replacement parts.
5. Carefully observe and follow the instructions provided below to avoid improper use of the appliance. **DO NOT** use the vacuum for any purpose other than those described in this manual.
6. Before use, carefully inspect all parts for any damage. **DO NOT** use if any parts are damaged.
7. The use of an extension cord is **NOT** recommended.
8. This vacuum cleaner contains no serviceable parts.
9. This appliance can be used by persons with reduced physical, sensory, or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Cleaning and user maintenance shall not be made by children. Keep the appliance and its cord out of reach of children. **DO NOT** allow the appliance to be used by children. **DO NOT** allow to be used as a toy. Close supervision is necessary when used near children.
10. Always turn off the vacuum cleaner before connecting or disconnecting any motorized nozzles, hose, or other accessories.
11. **DO NOT** handle plug or vacuum cleaner with wet hands.
12. **DO NOT** use without filters in place.
13. Only use Shark® branded filters and accessories.
14. **DO NOT** damage the power cord:
 - a) **DO NOT** pull or carry vacuum cleaner by the cord or use the cord as a handle.
 - b) **DO NOT** unplug by pulling on cord. Grasp the plug, not the cord.
 - c) **DO NOT** run the vacuum cleaner over the power cord.
 - d) **DO NOT** close a door on the cord.
 - e) **DO NOT** pull the cord around sharp corners.
 - f) **DO NOT** leave the cord near heated surfaces.

15. **DO NOT** put any objects into nozzle or accessory openings. **DO NOT** use with any opening blocked; keep free of dust, lint, hair, and anything that may reduce airflow.
16. **DO NOT** use if nozzle or accessory airflow is restricted. If the air paths or the motorized floor nozzle become blocked, turn the vacuum cleaner off and unplug from electrical outlet. Remove all obstructions before you plug in and turn on the unit again.
17. Keep nozzle and all vacuum openings away from hair, face, fingers, uncovered feet, or loose clothing.
18. **DO NOT** use if vacuum cleaner is not working as it should, or has been dropped, damaged, left outdoors, or dropped into water.
19. Use extra care when cleaning on stairs.
20. **DO NOT** leave the vacuum cleaner unattended while plugged in.
21. When powered on, keep the vacuum cleaner moving over the carpet surface at all times to avoid damaging the carpet fibers.
22. **DO NOT** place vacuum cleaner on unstable surfaces such as chairs or tables.
23. Your Shark® vacuum may not be designed to stand up on its own. When taking a break from cleaning, you may need to lean it against furniture or a wall, or lay it flat on the floor. Using the vacuum for an application where the unit lacks stability may result in personal injury.

24. **DO NOT** use to pick up:
 - a) Liquids
 - b) Large objects
 - c) Hard or sharp objects (glass, nails, screws, or coins)
 - d) Large quantities of dust (drywall dust, fireplace ash, or embers). **DO NOT** use as an attachment to power tools for dust collection.
 - e) Smoking or burning objects (hot coals, cigarette butts, or matches)
 - f) Flammable or combustible materials (lighter fluid, gasoline, or kerosene)
 - g) Toxic materials (chlorine bleach, ammonia, or drain cleaner)
25. **DO NOT** use in the following areas:
 - a) Poorly lit areas
 - b) Wet or damp surfaces
 - c) Outdoor areas
 - d) Spaces that are enclosed and may contain explosive or toxic fumes or vapors (lighter fluid, gasoline, kerosene, paint, paint thinners, mothproofing substances, or flammable dust).

26. Turn off all controls before plugging in or unplugging the vacuum.
27. Observe the following when interacting with the odor neutralizing cartridge:
 - a) **DO NOT** attempt to disassemble odor neutralizing cartridge.
 - b) Avoid direct contact with the fragrance pod in the cartridge.
 - c) **DO NOT** directly inhale from the odor neutralizing cartridge.
 - d) Keep away from children and pets.
 - e) Keep away from heat, sparks, and open flame.
 - f) **DO NOT** place in direct sunlight.

FRAGRANCE CARTRIDGE FIRST AID

- a) Avoid contact with fabrics and finished surfaces.

- b) Eye contact: Remove contact lenses if present. Rinse continuously with water for several minutes.
 - c) Skin contact: Wash hands thoroughly after handling. If irritation or rash develops, seek medical advice/attention.
 - d) Inhalation: Move person to fresh air if they are experiencing any respiratory symptoms. If symptoms persist, seek medical advice/attention.
 - e) Ingestion: **DO NOT** induce vomiting. Seek medical advice/attention.
28. Unplug from electrical outlet when not in use and before any maintenance or cleaning.
29. Hand wash with water only. Washing with cleaning chemicals could damage the unit.
30. During cleaning or routine maintenance, **DO NOT** cut anything other than hair, fibers, or string wrapped around the brushroll.
31. Allow all filters to air-dry completely before replacing in the vacuum to prevent liquid from being drawn into electric parts.
32. Make sure the dust cup and all filters are in place after routine maintenance.
33. If provided, secure the power cord around the two cord hooks during storage.

SAVE THESE INSTRUCTIONS

ASSEMBLY

1. Place motorized **Nozzle** on floor and insert **Wand**, pressing it in until it clicks securely into place.
2. Place **Pod** onto wand and slide down to connect.
3. Insert **Handle** into wand, pressing it in until it clicks securely into place.
4. Connect **Hose** to back of pod, pressing it in until it clicks securely into place.
5. Remove **Odor Neutralizer Technology Dial** from bag. Flip up the dial handle, align the teal arrows, then insert the dial into the nozzle.
6. To lock and engage the dial, rotate it counterclockwise until it clicks into the desired odor intensity setting.

IMPORTANT: For proper operation, ensure all connections are securely clicked into place.

TECHNICAL SPECIFICATIONS

Voltage: 120V~, 60Hz

Note: The image shown here is for illustrative purposes only and may be subject to change. The actual number of accessories may vary depending on the model.

TECHNOLOGY SETTINGS

SETTINGS

Insertion/Removal: Rotate the odor dial to align the teal arrows. Remove the dial to access the odor cartridge for removal or replacement.
Low: Rotate the dial toward the Low position to decrease the intensity to the lowest level when the vacuum is in use.
High: Rotate the dial toward the High position for the highest intensity level when the vacuum is in use. This position is the recommended setting for optimal performance.

ODOR NEUTRALIZER TECHNOLOGY TIPS

Odor Dial Must be Installed for Vacuum to Function Properly

- Remove odor cartridge from dial if you don't want the benefits of the odor neutralization technology.

Maintenance Required

- Clean all filters as recommended under Cleaning Filters.
- Empty the dust cup before storing your vacuum.
- Replace the cartridge as recommended under Odor Cartridge Replacement.
- If wet pet messes are cleaned up, thoroughly clean the vacuum.

Fragrance Strength Over Time

- The intensity of the odor neutralizer technology's fragrance may diminish over time. It may also have no noticeable fragrance at all. This is natural and does not indicate the technology isn't working. Follow replacement instructions to ensure continued performance.

NOTES: • The odor dial needs to be installed for the vacuum to function properly, with or without the odor cartridge.
• Odor Neutralizer technology effectively deodorizes while interacting with odors from inanimate sources.

ODOR NEUTRALIZER TECHNOLOGY

ODOR CARTRIDGE REPLACEMENT (SOLD SEPARATELY)

Flip up the handle and rotate the dial clockwise until the two teal arrows are aligned. Pull the handle to remove the dial from the nozzle.

Remove the new odor cartridge from the sealed packaging. To maintain the life of the cartridge, keep it in the sealed packaging until you are ready to install it.

Align the teal arrow on the dial cover with the teal arrow on the nozzle, then reinsert the dial into the nozzle. Rotate the dial counterclockwise until it clicks into an intensity setting to engage. Rotate further to change the intensity setting.

Rotate the cartridge counterclockwise in the dial housing and pull out the cartridge to remove it.

Align the yellow arrow on the side of the cartridge with the yellow arrow on the side of the dial cover, then insert the cartridge into the dial. Rotate the cartridge clockwise to lock it in place.

Dispose of the old cartridge by dropping it into the trash.

NOTE: Odor cartridges should be replaced every 6 months for optimal odor neutralizer technology performance.

WHOLE-HOME CLEANING

SETTINGS

HARD FLOOR

Slide selector to Hard Floor, then press selector button to turn on power.

NOTE: The brushroll will not spin unless the wand is reclined.

CARPET

Slide selector to Carpet, then press selector button to turn on power.

Brushroll will spin faster.

NOTE: The brushroll will not spin unless the wand is reclined.

SUCTION CONTROL

Suction Control Collar offers variable suction based on your needs. Slide to **MIN** to reduce suction and increase maneuverability on carpets. Slide to **MAX** to increase suction on bare floors.

NOTE: For deep cleaning per ASTM F 608 (embedded dirt in carpets), please set to **Carpet**.
NOTE: For particularly stubborn stuck-on dust messes on hard floors, set to **Carpet**.

WHOLE-HOME CLEANING

CLEANING MODES

To engage brushroll, turn power on, then step on floor nozzle and tilt handle back.

UPRIGHT

EMPTYING THE DUST CUP

IMPORTANT: Unplug the power cord before performing any maintenance.

To remove **Dust Cup**, slide up the buttons on both sides of the handle. Tilt dust cup, then lift to remove.

To empty debris, press lower release button and bottom of dust cup will drop open.

To remove collected debris from **Lint Screen**, press top release button and lift handle to open. Gently brush lint screen to clean.

To reinstall, place bottom of dust cup into pod and then tilt until it clicks into place.

CLEANING AND REPLACING THE FILTERS

CLEANING FILTERS

Regularly rinse and replace the filters to maintain your vacuum's suction power and to maximize the effectiveness of the odor neutralizer technology.

To prevent damage from cleaning chemicals, rinse filters with cold water only. Allow all filters to air-dry for at least 24 hours before reinstalling them to prevent liquid from being drawn into electric parts.

IMPORTANT: DO NOT use soap when cleaning the filters.

CLEAN PRE-MOTOR FILTERS
EVERY 3 MONTHS

Remove **Dust Cup**, then lift out **Foam and Felt Filters**.

CLEAN HEPA FILTER
EVERY YEAR

Press **Filter Access** button at bottom of **Filter Cover**. Tilt cover and lift out. Remove **HEPA Filter**.

To reinstall, insert **HEPA Filter** into unit and replace the cover.

PLEASE READ CAREFULLY AND KEEP FOR FUTURE REFERENCE.

This Owner's Guide is designed to help you get a complete understanding of your new Shark® Lift-Away™ with PowerFins™ HairPro™ and Odor Neutralizer Technology Upright Vacuum. Illustrations may differ from actual product. We are constantly striving to improve our products; therefore the specifications contained herein are subject to change without notice.

MAINTENANCE

NOZZLE MAINTENANCE

SELF-CLEANING BRUSHROLL

If any hair is wrapped around the brushroll, continue vacuuming, using Carpet mode on a bare floor surface, a low-pile carpet, or a small area rug. This will allow the self-cleaning brushroll to remove the hair wrap and send it to the dust cup.

If you run over a hard or sharp object or notice a noise change while vacuuming, check for blockages or objects caught in the brushroll.

If some fibers remain wrapped around the brushroll after continued use, clear them from the brushroll.

Clean off any debris on the brushroll.

NOTE: If any hair is wrapped around the brushroll, extending cleaning time will allow the self-cleaning brushroll to remove it for you. If some fibers remain wrapped around brushroll after continued use, carefully remove them.

CORD MAINTENANCE

1. **DO NOT** pull or carry vacuum cleaner by the cord or use cord as a handle.
2. **DO NOT** unplug by pulling on the cord. Grasp the plug, not the cord.
3. **DO NOT** close the door on the cord.
4. **DO NOT** pull the cord around sharp corners.
5. **DO NOT** leave the cord near heated surfaces.

To minimize the risk of power cord damage, **DO NOT** run the vacuum over the power cord. If this occurs, immediately shut off power to the vacuum and remove the cord from the brushroll or nozzle.

CHECKING FOR BLOCKAGES

Detach hose from vacuum pod, and check hose and opening on back of pod for blockages.

Detach wand from floor nozzle and handle, and check both ends for blockages.

Detach wand from floor nozzle, tilt nozzle neck back, and check opening for blockages.

To access the nozzle hose, pinch the release touchpoints on the bottom of the nozzle, then lift the cover and clear any blockages.

NOTE: In order to ensure the highest possible standard for refurbished items, all units are thoroughly inspected as part of the process. For this item, water may be used during the refurbishing process and so; you may notice some condensation in the water reservoir. It is recommended to rinse the water reservoir with fresh water prior to its first use.

Detach handle from wand and hose from the vacuum pod, and check openings for blockages.

TROUBLESHOOTING

Power cord caught in brushroll or floor nozzle.

- To minimize the risk of power cord damage, DO NOT run the vacuum over the power cord. If this occurs, immediately shut off power to the vacuum and remove the cord from the brushroll or nozzle.
- Inspect power cord and plug for any damage before use. DO NOT use vacuum cleaner with a damaged cord or plug. Turn off all controls before plugging in or unplugging the vacuum cleaner. Store your vacuum cleaner with the power cord secured around the two cord hooks.

Vacuum is not picking up debris. No suction or light suction.

- Check filters to see if they need cleaning. Follow instructions for rinsing and air-drying the filters before reinserting in the vacuum.
- Dust cup may be full; empty dust cup.
- Check hose, hose connections, nozzle, wand, pod, and accessories for blockages. Clear any blockages found. See the Checking for Blockages section for more information.
- If any hair, string, or carpet fibers are wrapped around the brushroll, extend cleaning time to allow the self-cleaning brushroll to remove them. If some hair or fibers remain wrapped around brushroll after continued use, carefully clear away any debris or fibers. See Cleaning the Brushroll section for more information.

Vacuum is hard to maneuver on high pile/plush carpets or lifts area rugs.

- Make sure selector switch is set to Hard Floor.
- Suction is powerful. Take care when vacuuming area rugs or rugs with delicately sewn edges.
- To minimize suction, slide the Suction Control collar to MIN.

Brushroll doesn't spin.

- If the headlight indicator lights turn red, turn off the power. Slide the Suction Control collar to MIN, then turn the vacuum back on.
- If the headlight indicator lights are still red, there might be a clog. Immediately turn off and unplug the vacuum. Remove pod from floor nozzle and clear any blockages. Reconnect nozzle, plug in vacuum, and turn on power.
- With the power on, recline the handle, which will automatically activate the brushroll.
- Ensure that the selector switch is set to Carpet for brushroll to spin.

Vacuum turns off on its own or headlight indicator lights flash red.

If your vacuum overheats, the thermostat will automatically turn off the motor. Perform the following steps to restart:

1. Turn vacuum off and unplug it.
2. Empty dust cup and clean filters. See Emptying the Dust Cup and Cleaning and Replacing the Filters sections for more information.
3. Check for blockages in hose, wand, floor nozzle, accessories, and inlet openings.
4. Allow unit to cool for a minimum of 60 minutes.
5. Plug in vacuum and turn it on.

Vacuum is emitting air that smells bad.

- Dust cup may be full; empty dust cup. Empty dust cup after each use for optimal odor neutralizer technology performance.
- Check filters to see if they need cleaning. Follow instructions for rinsing and air-drying the filters before reinstalling them.
- Check to make sure odor cartridge is installed in the dial and the dial is installed in the nozzle.
- Check the odor neutralizer technology dial on the nozzle to see what setting is enabled.
- If odor neutralizer technology dial is at any setting from Low to High and the cartridge has been installed for 6 months or longer, consider replacing it.
- If the odor cartridge is still emitting a scent but you dislike it, consider turning the intensity down, or reinstall the dial in the nozzle without the cartridge.
- If the odor neutralizer technology cartridge is not emitting a scent, consider replacing it.
