

IMPORTANT SAFETY INSTRUCTIONS

KEEP AWAY FROM WATER

DANGER—As with most electrical appliances, electrical parts are electrically live even when the switch is off:

To reduce the risk of death by electric shock:

1. Always unplug the unit immediately after using.
2. Do not use while bathing.
3. Do not place or store appliance where it can fall or be pulled into a tub or sink.
4. Do not place in or drop into water or other liquid.
5. If an appliance falls into water, unplug the unit immediately. Do not reach into the water.

WARNING—To reduce the risk of burns, electrocution, fire, or injury to persons:

1. An appliance should never be left unattended when plugged in.
2. Close supervision is necessary when this appliance is used by, on, or near children or individuals with certain disabilities.
3. Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by the manufacturer.
4. Never operate this appliance if it has a damaged cord or plug, if it is not working properly, or if it has been dropped, damaged, or dropped into water.

5. Keep the cord away from heated surfaces. Do not wrap the cord around the appliance.
6. Never block the air openings of the appliance or place it on a soft surface, such as a bed or couch, where the air openings may be blocked. Keep the air openings free of lint, hair, and the like.
7. Never use while sleeping.
8. Never drop or insert any object into any opening or hose.
9. Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
10. Do not use an extension cord with this appliance.
11. Do not direct hot air toward eyes or other heat-sensitive areas.
12. Attachments may be hot during use. Allow them to cool before handling.
13. Do not place appliance on any surface while it is operating.
14. While using the appliance, keep your hair away from the air inlets.
15. Do not operate with a voltage converter.

SAVE THESE INSTRUCTIONS

OPERATING INSTRUCTIONS

1. Turn the dryer on and off.
2. Adjust the airflow, pressing the left-hand button allows you to choose a low, medium, or high airflow.
3. Adjust the temperature. Pressing the right-hand button allows you to choose a low, medium, or high temperature.
4. To attach any accessories included with your model, press them into place on the front of the dryer. You will know they are properly attached if the IQ logo on the back of the dryer illuminates when the dryer is turned on.
5. Press and hold the Cool Shot button for a cool burst of air to set your style.
6. Press the ALCI button to reset the dryer. See Troubleshooting & Error Codes for more information.

For further operating instructions, please consult the Styling Guide

Storage, Cord Safety, and Maintenance/Cleaning:

- Ensure the cord is not knotted, twisted, or wrapped around any nearby objects when in use.
- To store the dryer when not in use, wrap the cord in a circle and use the Velcro cord tag to secure the cord in place.
- Use the Small Cleaning Brush included in the box at purchase as needed.

Clean dust and debris from the rear hair dryer filter.

Accessory type and quantity may vary depending on the model.

TROUBLESHOOTING & ERROR CODES

MAINTENANCE/CLEANING

Reduction in Airflow or Overheating

A change in airflow or air power, airflow blockages, overheating, and/or visible buildup on the back of the unit indicates your hair dryer needs to be cleaned. We recommend using the Small Cleaning Brush included with your purchase to clean off the back of the hair dryer.

ALCI OPERATION

Electricity flickers or trips circuit breaker during use.

This dryer is equipped with an Appliance Leakage Circuit Interrupter (ALCI), a safety feature that renders it inoperable under abnormal conditions. Should the dryer turn off in use, press the red Reset button on the plug and the dryer should function normally. If the dryer does not reset, please check your circuit breaker. If the issue persists, ensure there are no other appliances plugged in within the room where the dryer is being used. Do not use the dryer with a power strip.

OVERHEATING

Hair dryer is overheating or shuts off.

This unit is equipped with a temperature-protective thermostat. If for some reason your hair dryer overheats, the thermostat will automatically turn the unit off. To prevent power-down recurrence, unplug the hair dryer and set it aside to cool, or cool down using the cool shot button during use. Overheating may result if the unit is powered on for a long duration, or can indicate a blockage or dust buildup. We recommend using the Small Cleaning Brush included with your purchase to clean off the back of your unit. If overheating continues to occur, contact a service center.

How it works

TIP: Press and hold **Cool Shot** as desired to lock in your style. All 3 red temp lights will be OFF when **Cool Shot** is engaged.

What's in the box?

Note: Accessories may vary.

STYLING WITH THE SYSTEM

When an IQ Styler is attached, Shark™ HyperAIR intelligently sets the ideal heat and airflow settings for fast, healthy styling.

The IQ logo on the back of the dryer will illuminate when a Styler is properly attached.

Dry and shape in fewer steps.

Swivel concentrator for easy styling

Rotate the concentrator to ensure airflow is always in line with a round brush when styling.

ADJUST THE AIRFLOW

Pre-Styling Mode

Slide lever left to retract nozzle.

• Wider airpath for a gentle, all-over quick dry

Precision Styling Mode

Slide lever right to extend nozzle.

• Narrow, targeted airpath for smoothing, shaping, and bending

How to finesse your flow

Press the IQ 2-in-1 Concentrator into the head of the hair dryer until it clicks into place.

1. Gentle-dry with the nozzle retracted, applying airflow from roots to ends.

Product color may vary

2. When excess moisture is gone, extend nozzle and start styling with a round brush. Slide the lever to move from pre-styling mode to precision styling mode. Rotate the concentrator so airflow is always in line with the round brush.

START WITH TOWEL-DRIED HAIR.

Apply hair products or styling agents as desired.

3. Apply heat in a downward motion for smoothing. Apply heat at ends for shaping and bending.

4. Finish styling by setting shape at ends with Cool Shot.

Get to know your IQ Curl-Defining Diffuser

IQ Curl-Defining Diffuser ✕ air ● ○ ○ ○ ● ○ ○ temp ⚡

Fast, even drying from root to tip.

PERFECT YOUR CURLS

Slide lever to retract or extend prongs as desired.

- Retract prongs for:
- Shorter, finer hair
 - Less heat on the scalp

- Extend prongs for:
- Longer, thicker hair
 - Reaching and lifting the root

TIP: Press and hold **Cool Shot** as desired to lock in your style. All 3 red temp lights will be OFF when **Cool Shot** is engaged.

Bring the bounce

Press the IQ Curl-Defining Diffuser into the head of the hair dryer until it clicks into place.

1. Working around your head, bunch curls from ends between the petals of the diffuser, bringing it up to the roots for even drying.

Product color may vary

2. Rotate the diffuser back and forth, reaching up to roots. Pause and hold.

START WITH TOWEL-DRIED, DETANGLED HAIR.

Apply hair products or styling agents as desired.

3. If desired for more volume, extend prongs to lift roots higher.

Pro Tip: Gather hair in diffuser with prongs retracted, then extend them when you reach the roots to increase grab and maximize flow.

4. If desired, flip upside down and bunch from below. Keep the integrity of your natural curls by switching between low temp and the Cool Shot button.
